

# ASCEL RAY GLIMER

## ASPIRING WEB DEVELOPER

📍 Taguig, Metro Manila, Philippines    📞 09686465621    ✉️ ascelrayg@gmail.com

---

### PROFESSIONAL SUMMARY

Detail-oriented and highly motivated IT student and aspiring Web Developer with hands-on experience building web applications and managing data infrastructure. Proficient in full-stack fundamentals including modern JavaScript ecosystems, database management architectures, and clean styling frameworks. Adept at leveraging advanced AI-assisted development workflows to optimize efficiency and rapidly solve technical logic challenges. Proven track record of leading development sprints and project codebases within academic team environments.

### TECHNICAL SKILLS

#### Core Web Development

HTML5, CSS3, JavaScript (ES6+), React

#### Programming Languages

C++, Java, Python

#### AI-Assisted Development

ChatGPT, Gemini, GitHub Copilot

#### Backend & Databases

Node.js, PHP, MySQL (XAMPP), Supabase

#### Tools & Architecture

Visual Studio Code, Git, GitHub

### KEY PROJECTS

#### 1D Garage Web System ("Matatag v.2")

*First Semester, 3rd Year*

##### Lead Programmer | Academic Team Project

- Served as the primary developer directing full-stack architectural decisions and logic implementation for a streamlined garage management platform.
- Designed data models, implemented access permissions, and engineered scalable database interactions using PHP and backend logic frameworks.
- Collaborated closely with team members to translate functional business requirements into clean utility classes and seamless user interfaces.

#### Quezlet Quiz Game

*Academic / Personal Project*

##### Lead Creator

- Designed and engineered an interactive educational quiz game, overseeing production from asset logic to interactive scripts.
- Programmed the core gameplay loop, responsive scoring systems, and active user interface transitions using Adobe Flash logic structures.

## EDUCATION

### Bachelor of Science in Information Technology

*In Progress*

#### *Relevant Coursework*

- Web Application Development, Database Management Systems, Data Structures and Algorithms, Object-Oriented Programming.

## KEY STRENGTHS

- **Full-Stack Versatility:** Confidently maps backend logic rules to user-facing frontend frameworks.
- **Development Speed:** Strategically integrates AI pair-programming assistants to accelerate debugging and code optimization workflows.
- **Technical Leadership:** Experienced in organizing project versions, debugging teammate integrations, and maintaining consistent repository practices.
